BRIDGE REPAIRS ON INTERSTATE 93 IN CONCORD
SOUTHBOUND WORK OVER U.S. ROUTE 3 AND LOUDON ROAD

The New Hampshire Department of Transportation announces repair work on two Interstate 93 bridges in Concord is scheduled to begin on Tuesday, September 16, 2003.

This work will involve bridge deck repairs in the southbound lanes of the I-93 bridge over U.S. Route 3 (Manchester Street) and the I-93 bridge over Loudon Road. Repairs will begin first on the bridge over U.S. Route 3 and are expected to last up to five days. The work on the I-93 bridge over Loudon Road will immediately follow and is expected to take up to two days to complete.

Work hours will be daily from 9:00 am until 3:00 pm. Motorists should expect lane closures at each work site and some minor delays. Warning signs, cones and uniformed officers will help guide traffic through the work zones.

In the event of inclement weather, these bridge repairs will be postponed until the following day.
